

## Mr. Jingura

**NATIONALITY:** Zimbabwean with valid South African work permit

### SUMMARY

I am an Environmental Impact Assessment (EIA) expert with nine (9) years of experience in the environmental field. I have worked for five (5) years as part of a multi disciplinary EIA team on various projects in different industries such as mining, infrastructure construction, energy and water, with prior four (4) years of experience as an environmental officer for a plastic manufacturing company. My areas of expertise include EIA team leadership, impact assessment, client liaison, public consultations, environmental monitoring, auditing, project closure/decommissioning planning report writing, presentation, training facilitation as well as safety health management.

I am an experienced Safety, Health, Environmental and Quality Systems Developer with excellent technical, presentation and people skills combined with considerable business knowledge.

I aspire to join an organisation where my experience, social science background, environmental impact assessment (EIA) and audit training can be useful. I can handle legal compliance issues, EIAs, audits, training, reporting and corporate social responsibility issues, or work as part of a multi disciplinary team of experts on various development projects to ensure licensing and compliance through identifying impacts, providing mitigation measures designing environmental management plans (EMPs), consulting affected communities and relevant Government departments as well as meeting with clients.

I am looking for a working environment where I can add value through my experience, as well as one conducive to personal development through education and training as well as exposure to new culture, techniques and methods.
