

Mr B. Kumar

NATIONALITY: Indian

SUMMARY

Engineering Services mainly projects, utilities (Water, Compressed Air, Steam, Power, Humidification & Air Conditioning) & Maintenance of large operation & backed by Engineering, Product Manufacturing, Machinery Fabrication, Plant and Machinery Erection, Commissioning and Maintenance of them have been my strong experiences in reputed companies. Apart from these I have been involved in Environmental Control for large Textile Industries. With the background of Engineering qualification, Marketing Management and various computer application along with quality and environmental certificates it would be most suitable for me to have senior most Engineering position in any industrial sector and anywhere in India or Abroad

EDUCATION

- **BE (Mech.)** from BMS College of Engineering, Bangalore with First Class.
- **PGDMM** (Post Graduation in Marketing Management) from IGNOU, New Delhi.
- **AutoCAD 2004** in Mechanical from CAD Centre, Ahmedabad.

EMPLOYMENT RECORD

Engineering Manager

(Utilities & Environment Control)

Ashima Textile, Ahmedabad

(1997 to 2004)

Appointed in 1997 as Assistant Manager (Engineering) and assigned to look after utilities and maintenance of Air Compressors, Blowers, Boilers, DG sets, CPP, RO Plant, Water Softening Plant, Humidification Plants, Effluent Treatment Plants. For my wonderful performance I was promoted to Manager (Engineering and Environment Control) in 1998. I was given the additional responsibilities of Environment Control of Group Ashima. I successfully maintained the Pollution Board norms by proper operation of Effluent Treatment Plants and Boilers. Granted all the consents by GPCB & AMC to run the industry by my operation, maintenance and liaisoning skills.
